Replacement Door Catalog

RTF Manufacturing Provides State-of-the-Art, Quality-Designed Refrigeration Equipment for the Marine Industry. Engineered to the Highest Military Specifications.

RTF has a full line of models for use in military, commercial, and pleasure vessels:

- Upright Refrigerators • Upright Freezers • Upright Refrigerator/Freezers
- Under-Counter Refrigerators • Under-Counter Freezers
- Cold Food Counters

Why Choose RTF Manufacturing?

Superior Design

RTF refrigerators and freezers are designed using superior heavy gauge stainless steel interiors and exteriors, foamed in place CFC-free urethane insulation, fully hermetic compressors, extra heavy duty chrome plated two point hinges. Positive keyed locking handles provide the best door seal. All units are available in modular/hatchable construction. All units meet UL Standards for safety and performance.

Durability

RTF refrigerators and freezers are engineered to the highest military specifications. Our continued commitment to the marine industry allows us to witness first hand some of the harshest conditions this equipment operates in and we are proud to say that we pass the test.

Broad Range of Sizes and Styles

RTF refrigerators and freezers are available in a variety of sizes and styles, each built to the same exacting standards and quality. Our units are used on Navy Vessels, Coast Guard Vessels, Crew Off-Shore Supply Vessels, Container Ships, Push Boats, Fishing Vessels, and Jack-up Drill rigs.

Immediate Availability

We maintain stock in many of our most popular models for immediate shipment.

Custom Designs or Special Sizes Made to Order

RTF can build or modify a refrigerator or freezer to fit your requirements. Our CAD drawing department will be happy to assist you in providing all the drawings for your next special project.

Price and Value

We deliver reliability, durability and quality at a competitive price.

Technical Assistance

Have a question or problem? No problem! Call our toll free support hotline: 1-800-836-0744 and our engineering or service department will be happy to assist you. Our staff of highly qualified experts are available from 6:30 a.m. to 5:00 p.m. Eastern Standard Time. Experience the finest in technical support.

Service Capability

RTF refrigerators and freezers are built using only the highest quality material and components. A network of wholesalers throughout the US and Canada means your motor or compressor can be replaced or repaired fast—with no need to go anywhere else.

Modular Construction

RTF offers the availability of modular construction to meet the needs of special installation challenges. Confined space and limited accessibility to doorways, hulls, bulkheads and decks is not a problem when installing our expertly engineered modular units.

Introducing IDXIN® Vacuum Insulation Panel

IDXIN® Vacuum Insulation Panel (VIP) is a new high-efficient ultra thin (8 to 30mm) thermal insulation material using the latest vacuum insulation technique. VIPs are manufactured by inserting a low thermal conductivity core material in a highly impermeable gas barrier which is evacuated and sealed. The result is a highly thermal insulation panel delivering ten fold the thermal performance and 25% energy savings compared to conventional insulation materials, while increasing the usable volume by 20%–30%. VIPs offer extremely low thermal conductivity (only 1/8 of PU), are not harmful to the environment and meet government regulations. RTF's state-of-the-art, quality-designed refrigeration systems continue to provide a full line of reliable, efficient and environmentally safe products and now offer this additional superior insulation to their manufacturing process. Decrease your energy use and energy cost.

RTF Manufacturing is Your Source for Refrigeration and Freezer Equipment for the Marine Industry. Built to Fit Your Plans.

Call 1-800-836-0744 or **email: info@rtfmanufacturing.com** to request a quote today.

RTF has trained personnel available to assist you in product selection, installation and maintenance. Our RTF service department is available to take your call. Discuss your requirements with an RTF engineer and we will provide the assistance you need. A detailed quote and specifications will be provided for each job.

Welcome to **RTF** Manufacturing, America's premier manufacturer of custom and standard cold storage doors and double acting traffic doors for new and existing walk-in coolers, freezers and refrigerated warehouses. Our Product Line also includes Marine Refrigeration and Freezers units in addition to models for the Health Care Industry. Our Product Line also includes Custom Designed Stainless Steel Storage Units, Cabinets, Counters and Hutches and more.

RTF offers Competitive Pricing, Quality Materials, and the Technical Capabilities, to get the job done on time every time.
