

Refrigerated Evidence Storage

www.rtfmanufacturing.com

Forensic and DNA Science Preservation

RTF Manufacturing State-of-the-Art Quality Custom-Designed Evidence Storage Refrigeration Systems.

RTF Manufacturing designs and builds an exclusive line of refrigerated evidence storage lockers for temporary storage of biological evidence ensuring the integrity of critical biological evidence.

Our Refrigeration Systems save energy costs and meet all building code requirements including UL Standards for safety and performance. RTF superior designs keep your operating costs to a minimum.

RTF Refrigerated Evidence Storage Features Temperature Surveillance

All RTF refrigerated evidence storage lockers are specifically engineered to maintain a constant temperature of 38 to 42 degrees Fahrenheit for well preserved science preservation storage.

RTF Sureshield Coating®

A unique coating for metal substrates to enhance our full line of refrigeration systems. Sureshield Coating provides long-lasting protection by inhibiting the growth of odor and stain-causing bacteria, molds, mildews, and fungi on the surface. Sureshield is also corrosive resistant, resists fingerprints and is easy to clean. Sureshield is NSF approved.

RTF Evidence Drying Systems Forensic Evidence Dryer Cabinet

Protect yourself and your evidence from infectious pathogens and noxious odors with RTF Evidence Drying Systems. Our dryer cabinets are designed to remove moisture from forensic and DNA evidence using forced air to ensure that the samples are dry. Dryers are free-standing cabinets with corrosion-proof shelves. Include air intake and exhaustion filters (e.g., HEPA), carbon filters, time and temperature controls, and alarms. Standard and custom sizes available.

Prevent decomposition of evidence and protect technicians from exposure to unknown substances with an RTF Evidence Drying Cabinet.

Call 1-800-836-0744 or email: info@rtfmanufacturing.com to request a quote today.

RTF has trained personnel available to assist you in product selection, installation and maintenance.

Our RTF service department is available to take your call. Discuss your requirements with an RTF engineer and we will provide the assistance you need. A detailed quote and specifications will be provided for each job.
